

WALES FESTIVAL OF INNOVATION

How to get involved

The Wales Festival of Innovation will showcase innovation and the vital role it plays in the economic growth of the nation.

Our aim is to bring together the many companies and individuals in Wales who contribute so much through their innovative activity and original thinking. We want to present a 'package' of activity to the world on what Wales has to offer. For example:

- If you're a business perhaps you could organise an open day on site
- If you're a University project you could organise a one-day workshop with your partners from industry or elsewhere
- Perhaps you could organize a tour or interactive activity for young people in your area? Inspire them to be part of your fantastic field of work in the future?

There are even interactive lectures on the technology and innovation emerging in Wales. There is no limit to the style or shape of the activity you may want to do.

To be a part of the Wales Festival of Innovation, or if you have any further questions, please visit our website www.festivalofinnovation.org to register your interest or email us at info@festivalofinnovation.org.

To ensure the festival illustrates all that is great about innovation in Wales we have developed some simple guidelines for you to consider.

To take part in the Wales Festival of Innovation we ask that your proposed activity:

- Should take place between 19th – 30th June 2017
- Showcases innovative* activity.

If you have any questions, or suggestions, please email us at info@festivalofinnovation.org. Follow us on twitter @WFOInnovation for all the latest updates.

**Innovation in this instance is defined as the successful exploitation of new ideas. It could be a new product or service, or a new development to an existing product or service. Innovation can also reduce the amount and type of material used in production and address whole-lifecycle issues such as reuse and remanufacture. The Innovation must be from Wales.*
